BIR EONETT SYSTEM: SIMPLIFYING ECAR CREATION

BETTER 2 KNOW SERIES   ISSUE NO. 2

Understanding the eONETT System

The BIR's eONETT System is a significant digital transformation milestone, allowing taxpayers to process one-time transactions conveniently. It streamlines tax collection and tracking, initially handling eCAR applications for real estate sales.

THE PROCESS

► Account creation

► eCAR application submission

► Tax filing and payment

► eCAR claiming

Account Creation

1 Register on the eONETT icon found under the BIR eServices section.

2 Click "Create New Account" on the login page and provide the required details and email address.

3 After completing the form, click "Sign Up". Use the email link received to confirm account creation.

4 Log on to eONETT using your registered email and the 12-digit password.

5 Start the eCAR application process on the eONETT homepage after logging in.

eCAR application submission

1 On the eONETT site, choose either the "+ New CGT & DST Application" button for capital assets or the "+ New EWT or DST Application" button for ordinary assets.

2 Fill out all required fields and upload necessary documents on the online application form.

3 Receive a transaction number from the eONETT system, which will electronically send the data to the relevant BIR district office.

4 A Revenue Officer or Group Supervisor will review the application and recommend it to the Revenue District Officer/Assistant or Chief of Assessment Section for ONETT Computation Sheet (OCS) acceptance.

5 Check the application status on the eONETT homepage, which can be "Pending" (waiting for OCS approval) or "For Payment" (OCS accepted, tax payment required).

eCAR application submission

1 After the OCS is approved, receive a pop-up notification to pay the computed tax and Php 150.00 convenience fee.

2 Download and print tax returns from eONETT.

3 Choose to pay online or in person.

4 Pay the convenience fee using various payment methods.

5 Provide proof of payment on eONETT by clicking the "Proof of Payment" link, entering payment details, uploading scanned papers, and clicking "Submit."

6 Receive payment verification and download the claim slip to present to the Revenue District Office (RDO) for the final step of claiming the eCAR.
► For in-person payment, visit any Authorized Agent Bank, present downloaded BIR forms, and pay tax and fees over the counter.

► For online payment, click the "ePAY" icon on the eONETT homepage and proceed to ePayment channels.

eCAR application submission

1 Complete the ONETT Customer Satisfaction Survey Form (CSSF) before filing an eCAR claim to provide feedback on the eONETT system.

2 Visit the Revenue District Office (RDO) where the application was made to claim the eCAR.

3 Present the claim slip, application papers, and BIR documents to verify that the submitted papers match those recorded in the eONETT system.

Taxpayers can easily obtain an eCAR through the eONETT System, an online platform that streamlines the process for one-time transactions. While currently limited to real estate deals, the system will expand to cover more transaction types. We laud and support BIR's ongoing BIR's ongoing digital transformation efforts to enhance user experience and provide more efficient procedures.
